

# Gustave Roussy Selects Agatha eConsent to Manage the Remote Verification of Informed Consent of Targeted Studies

*Agatha's eConsent application supports the requirements for Informed Consent for Gustave Roussy*

BOSTON, MASSACHUSETTS, UNITED STATES, October 20, 2021

/EINPresswire.com/ -- Agatha Inc.

announces that [Gustave Roussy](#), the first oncology center in Europe, has

selected Agatha to assist with the remote verification of patient Informed Consent.

Gustave Roussy focuses on cancer research and development and sponsors around 100 clinical studies a year, including 55 opened cohort studies. The Institute collaborates with approximately 250 clinical sites across Europe. In its clinical operations, the Institute needed a way to improve its monitoring process to optimize the verification of patient informed consent of applicable studies.

“

Agatha's eConsent application, compliant with EU regulations, was exactly what we needed.”

*Thibaud MOTREFF, Gustave Roussy*

The Agatha eConsent application has been selected because it fulfills all of the requirements outlined by Gustave Roussy.

“Agatha's eConsent application, compliant with EU regulations, was exactly what we needed. The easy-to-use interface, and the ability to review and annotate Informed Consent forms directly in the application, will help our CRAs to verify that informed consents are compliant very quickly.” - Thibaud MOTREFF, CRA Team Manager and Clinical promotion team coordinator, Gustave Roussy

“We are pleased to have the opportunity to collaborate with Gustave Roussy and provide them with an easy-to-use solution for reviewing Informed Consent remotely. The primary goal with all our clinical operations applications is to enable our customers to improve the management of their clinical processes with full-featured applications that are not only easy-to-use but fast to

learn and adapt to their unique processes.” - Guillaume Gerard, COO, Agatha
