

Another Fish Story - The Book All Children want for Christmas

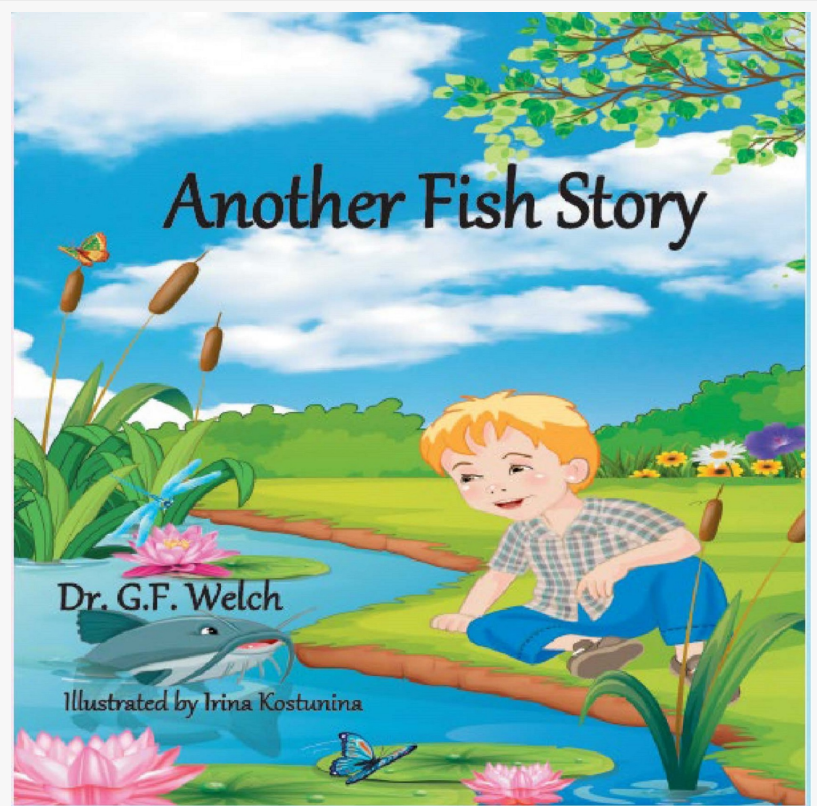

The Best Children's Picture Book this year. Talking fish with sass and class. An educational and a fun book.

LEAVENWORTH, KANSAS, UNITED STATES, November 22, 2021

/EINPresswire.com/ -- Fish can't talk!

Oh, yes we can! Yes, fish can talk and they have attitudes too. Proud of their color, or their size, or their popularity, they live in the pond and are happy to visit with little Dommy - after Papa falls asleep. The fish are as different as people are and they want Little Dommy to know it. The illustrations are so colorful and vibrant, they seem to come from real life - if life was ever that colorful! Real fish, looking like they do in the pond, they are sure to become your child's friends too. Dr. G.F. Welch has provided the "must have" gift for

children this year. Educational, colorful, and entertaining, ANOTHER FISH STORY, is anything but just another fish story. Fish who introduce themselves while old grandpa, aka Papa, takes a nap, they leap off the page at the reader. This book is such a great way for children to really listen and enjoy the story and recognize the many differences in fish and their different personalities. This book takes the children on an adventure with their grandfather that most of us can relate too in one way or another. If only all animals could talk and share their experiences with us, how much richer our lives could be. Each child reading this book, or having it read to them, has said it is the best book they have ever read! The only question now is why every teacher, librarian, parent, grandparent, aunt, uncle, or childcare center doesn't have a copy. Why don't you have a copy? Available online at Amazon, Barnes & Noble, Target, and various other sources, you need to order it now in time for Christmas. It may even be in a bookstore near you. If it's not, it should be!

This Year's Best Christmas Gift for Children!

Outstanding children's book!
Teaching young children the
importance of good work
ethics through the
identification of pond fish is
genius! Equally fun!"
