Mesothelioma Advocate*

mesothelioma suggesting-get the compensation you deserve-but if you do not retain the services of one of the nation's most skilled mesothelioma attorneys--the best compensation results may not happen.

"Erik Karst of the law firm of Karst von Oiste is always happy to discuss financial compensation with a Navy Veteran with mesothelioma at 800-714-0303 because he and his team have been helping people like this for decades. The reason mesothelioma is common among Navy Submarine Veterans who served before 1982 is

because they were almost all cross trained on various duties on their boat. If the boat went into a shipyard there is a good chance a significant portion of the crew stayed on their boat to assist the shipyard workers upgrading the boat or making repairs.

"If the person we have just described sounds like you and your mesothelioma diagnosis is recent in Florida or anywhere in the nation please call attorney Erik Karst of Karst von Oiste at 800-714-0303 so you can get specifics about your financial compensation claim. We think you will be glad you did." [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

The Florida US Navy Veterans Mesothelioma Advocate offers their free services to US Navy Veterans with mesothelioma in Miami, Jacksonville, Tampa, Saint Petersburg, Orlando, Hialeah, Fort Lauderdale, Tallahassee, Port Saint Lucie, Cape Coral or anywhere in Florida.

For the best possible treatment options in Florida the Florida US Navy Veterans Mesothelioma Advocate strongly recommends the following health care facility with the offer to help a diagnosed Veteran, or their family get to the right physicians at the following hospital.

\* The H. Lee Moffitt Cancer Center in Tampa, Florida: <http://moffitt.org>

Every US Navy ship vessel built up to 1980 contained asbestos. Extreme exposure to asbestos may have occurred to US Navy Veterans if they were assigned to a navy ship's engine room, as a machinists-mate, electrician, plumber/pipefitter, mechanic, in engineering, as a repair crew member, as a crew member on a nuclear submarine or as a member of the Navy Seabees. Additionally, a US Navy Veteran could have received extreme exposure to asbestos if they were required to stay on their ship or submarine for a major repair, overhaul or retrofit at a shipyard. Asbestos exposure was so extreme on US Navy ships and submarines, about one third of all US citizens diagnosed with mesothelioma each year are Veterans of the US Navy.
