

# Menopausal Hot Flashes Market Expected to Reach \$18.99 billion by 2027 : StratisticsMRC

*Statistics MRC report, Menopausal Hot Flashes Market Forecasts to 2027 – Global Analysis Application, Key Players, Types, End User and By Geography*

MARYLAND, GAITHERSBURG, UNITED STATES, October 21, 2021

/EINPresswire.com/ -- According to

Statistics MRC, the Global Menopausal Hot Flashes Market is accounted for \$10.26 billion in 2019 and is expected to reach \$18.99 billion by 2027 growing at a CAGR of 8.0% during the forecast period. Growing population of elderly women across the globe and technological advancement in the development of new drugs for the treatment are the major factors driving the market growth. However, availability of generic medicines is restraining the market growth.

Based on distribution channel, the retail pharmacies segment is likely to have a huge demand as it is preferred by large number of consumers such as pharmaceutical stores, hospitals, drugs stores, and clinics. Factors such as the growing female population and growth in the number of retail outlets in developing and emerging countries such as China and India will fuel the demand for women's health products. By geography, North America is going to have a lucrative growth during the forecast period due to growing baby boomer population, high health care expenditure, and large number of prescriptions of hormonal as well as non-hormonal treatment products.

Some of the key players profiled in the Menopausal Hot Flashes Market include Allergan plc, GlaxoSmithKline plc, Hisamitsu Pharmaceutical Co Inc, Merck & Co Inc, Mylan N.V, Novartis AG, Novo Nordisk A/S, Pfizer Inc, Teva Pharmaceutical Industries Ltd and TherapeuticsMD Inc.
