A jackhammer is a demolition hammer and is generally powered by external power source or hydraulic power. In addition, it can be operated by gas or air pressure. It is widely used in construction and mining industries to break rock, concrete, and pavement. It operates by driving an internal hammer in down and up motion. The hammer strikes the rock or surface and moves back to its original position to repeat the operation cycle.

The key factors that drive the growth of the global jackhammer market include increase mining industry in the developing countries in Latin America, Africa, and Asia-Pacific. In addition, the expansion of existing mines due rise in demand for metal and minerals also boosts the jackhammer market growth. However, government regulation due the environmental concern is expected to restraint the market growth.

## Top 10 Key Market Players

Atlas Copco  
DEWALT  
Einhell Germany AG  
HiKOKI Power Tools  
Hilti Corporation  
Makita Corporation  
Milwaukee Tool  
Robert Bosch Tool Corporation  
STANLEY Infrastructure  
TR Industrial

## Key Benefits

The report provides an extensive analysis of the current and emerging jackhammer market trends and dynamics.

In-depth jackhammer market analysis is conducted by constructing estimations for the key segments between 2019 and 2026.

Extensive analysis of the market is conducted by following key product positioning and monitoring of the top competitors within the market framework.

A comprehensive analysis of all the regions is provided to determine the prevailing opportunities.

The global jackhammer market forecast analysis from 2019 to 2026 is included in the report.

## Key Market Segments

### By Type

Pneumatic  
Electric  
Hydraulic

### By Application

Mining  
Construction  
Tunneling  
Well drilling

By Region

North America  
Europe  
Asia-Pacific  
LAMEA
