- Attachments

4. Variance

- Variance Type (Individual Choice, Individual Choice with Team, Physically Unable, Retired, Other)
- Date
- Comments
- Attachments

5. Additional Information

- Date
- Comments
- Attachments

The E-Tools for Tracking and Supporting Community Employment provide effective and easily accessible tools to evaluate if an individual is achieving goals. In aggregate, these E-Tools comprise a program's Employment History. The Employment History provides an effective tool for evaluating if the E-Tools for assessment and skill development are coordinated with the Job Bank in respect to matching individuals goals, skills, jobs, and job accessibility. The specific tasks for Therap's Community Employment system can be used with Therap's service tracking system to track billable services and, if necessary, submit claims for those services.

By identifying and supporting successful employment, the community E-Tools are continually being developed and refined to work with Therap's job bank and facilitate working with individuals to achieve community employment.
