

Aluminum Extrusion Market in India 2021-2026: Industry Size, Share, Top Companies Growth and Forecast

SHERIDAN, ALABAMA, UNITED STATES, October 21, 2021 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[India Aluminum Extrusion Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)", the India aluminum extrusion market size is currently witnessing moderate growth. Looking forward, the market is expected to continue its moderate growth during 2021-2026.

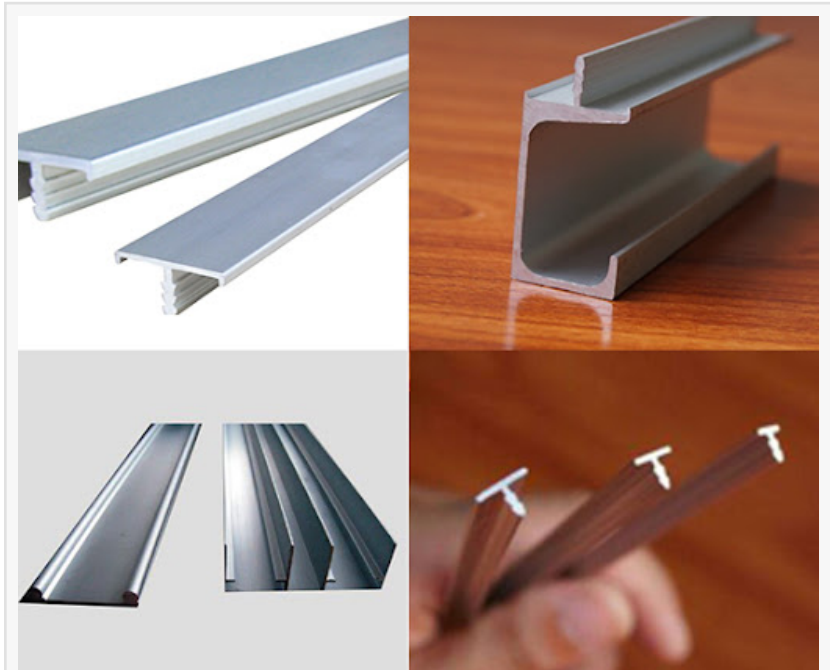

Aluminum extrusion refers to the process of forcing aluminum alloy through an extrusion die with a particular cross-sectional profile. An extrusion press involves various parts,

such as main cylinder, hydraulic pressure, ram, dummy block, billet, and container. Extrusion can be categorized as positive, reverse, compound and radial extrusion. Aluminum extrusion helps to enhance the deformation capacity, structural and mechanical properties of aluminum. In India, it is widely utilized in the automotive, construction, electrical and transport industries.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the purchase behaviors of the consumers globally-our estimates about the latest market trends and forecast values after considering the impact of this pandemic.

India Aluminum Extrusion Market Trends:

India Aluminum Extrusion Market

The escalating demand for durable and lightweight extruded products in various end use industries is primarily fueling the India aluminum extrusion market growth. The increasing usage of extrusion in the industrial and solar power sectors is further driving the market toward growth. Moreover, the rising construction of prefabricated structures, curtain walling, and space frame systems is positively influencing the market growth in the country. The increasing popularity of aluminum shutters and formwork has prompted leading players to offer fabricated and customized extrusion profiles, which is creating a positive outlook for the market.

Key Market Segmentation:

Breakup by Product Type:

- Mill Finished
- Anodized
- Powder Coated

Breakup by Alloy Type:

- 1000 Series Aluminum Alloy
- 2000 Series Aluminum Alloy
- 3000 Series Aluminum Alloy
- 5000 Series Aluminum Alloy
- 6000 Series Aluminum Alloy
- 7000 Series Aluminum Alloy

Breakup by End-Use Industry:

- Building and Construction
- Transportation
- Machinery and Equipment
- Consumer Durables
- Electrical
- Others

Breakup by Region:

- North India
- West and Central India
- South India
- East India

Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players.

Key highlights of the Report:

Market Performance

Market Outlook

Porter's Five Forces Analysis

Market Drivers and Success Factors

SWOT Analysis

Value Chain

Comprehensive Mapping of the Competitive Landscape

If you need specific information that is not currently within the scope of the report, we can provide it to you as a part of the customization.
