

# A.T. Still University partners with Osmosis.org to provide students access to on-demand, active learning resources

---

SALT LAKE CITY, UTAH, USA, October 21, 2021 /EINPresswire.com/ -- In an effort to further support [A.T. Still University](#) (ATSU) students' needs and a changing classroom environment for faculty, ATSU has partnered with [Osmosis.org](#) to provide access to a library with more than 1,800 of the latest illustrated videos, expertly aligned to the University's learning objectives and available anytime, anywhere.

"Osmosis.org has been wonderful to partner with. Our students and graduates benefit greatly from Osmosis.org's educational resources, ease of use, and contemporary topic updates," said ATSU President Craig M. Phelps, DO, '84.

Founded in 2012, Osmosis.org is built on the vision of creating the best learning experience possible for future clinicians and caregivers. More than 3.2 million students and hundreds of university partners have leveraged Osmosis' platform to supplement their traditional curriculum with illustrated videos and linked assessment items available on-demand.

"We love working with innovative, mission-driven institutions like ATSU, not only because they raise the line by training tens of thousands of health professionals who strengthen our healthcare system, but also because they share our mission to create the best learning experience possible for current and future clinicians," said Shiv Gaglani, Osmosis.org co-founder and CEO.

Established in 1892 by A.T. Still, DO, the founder of osteopathy, ATSU is renowned for its preeminence as a multidisciplinary health professions educator with best-in-class curricula and a focus on whole-person healthcare. With more than 3,700 students at locations in Missouri, Arizona, California, and online, ATSU is a forward-thinking institution supporting its students with the latest learning technologies.
