Surgical robots are the computer-controlled automated machines that used to conduct [minimally invasive](#) (MI) and [laparoscopic](#) surgeries in the healthcare sector. These robots can perform complex procedures by replicating the hand movements of the surgeons and using miniaturized surgical instruments meant to fit through small incisions. Moreover, surgical robots also offer faster recovery time than regular surgeries, minimal post-operative discomfort and reduced risks of infection and scars.

Market Trends and Drivers:

The rising incidences of neurological disorders, along with the growing geriatric population, is augmenting the demand for surgical robots. Furthermore, the increasing preference for MI procedures by both patients and healthcare providers is also substantially increasing the surgical robots market growth. Several technological advancements, such as the integration of Artificial

Intelligence (AI), the Internet of Things (IoT), and virtual and augmented reality (VR/AR) in the healthcare sector are also compelling the product demand. Rising investments in several R&D activities pertaining to robotics and medical sciences are anticipated to drive the market in the coming years.

Surgical Robots Market 2021-2026 Competitive Analysis and Segmentation:

Competitive Landscape With Key Players:

The competitive landscape of the surgical robots market has been studied in the report with the detailed profiles of the key players operating in the market.

Some of these key players include:

SRI International Inc.
Medtronic
Zimmer Biomet
Maxar Technologies Limited
Verb Surgical
Medrobotics Corporation
Stryker Corporation
Accuray Incorporated
Renishaw
Mazor Robotics Ltd.

Key Market Segmentation:

The report has segmented the global surgical robots market on the basis of product, application, end user and region.

Breakup by Product:

Robotic Systems
Instruments and Accessories
Services

Breakup by Application:

Gynecological Surgery
Urological Surgery
Neurosurgery
Orthopedic Surgery
Other Applications

Breakup by End-User:

Hospitals
Ambulatory Care Centers
Others

Breakup by Region:

North America
Asia Pacific
Europe
Latin America
Middle East and Africa

Key highlights of the report:

Market Performance (2015-2020)
Market Outlook (2021-2026)
Market Trends
Market Drivers and Success Factors
Structure of the Global Market
Value Chain Analysis
Comprehensive mapping of the competitive landscape
The Impact of COVID-19 on the Global Market

If you need specific information that is not currently within the scope of the report, we will provide it to you as a part of the customization.

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, and nanotechnology industries. We also provide cost model and manufacturing setup project reports through Syndicated Analytics, a subsidiary of IMARC Group.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.
