

Commercial Drones Global Market To Grow At Rate Of 22% Through 2025

The Business Research Company's Commercial Drones Global Market Report 2021: COVID 19 Implications And Growth To 2030

LONDON, GREATER LONDON, UK, October 22, 2021 /EINPresswire.com/ -- According to the new market research report '[Commercial Drones Global Market Report 2021: COVID-19 Growth And Change](#)' published by The Business Research Company, the commercial Drones market is expected grow from \$3.73 billion in 2020 to \$4.48 billion in 2021 at a compound annual growth rate (CAGR) of 20.1%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$9.78 billion in 2025 at a CAGR of 22%. Commercial drones are being considered by companies that have last-mile delivery as a main business process. The drones will help reduce cost per delivery and delivery time, thus increasing profits. Therefore, increasing the growth of the commercial drone's market.
