

# Global Veterinary Medical Equipment Market Size And Veterinary Medical Equipment Market Growth Opportunities

*The Business Research Company's  
Veterinary Medical Equipment Global  
Market Report 2021: COVID-19 Impact  
And Recovery*

LONDON, GREATER LONDON, UK,  
October 22, 2021 /EINPresswire.com/ --  
According to the new market research  
report '[Veterinary Medical Equipment  
Global Market Report 2021: COVID-19](#)

Impact And Recovery' published by The Business Research Company, the veterinary medical equipment market is expected to grow from \$1.77 billion in 2020 to \$2.08 billion in 2021 at a compound annual growth rate (CAGR) of 17.5%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The veterinary medical equipment market is expected to reach \$2.65 billion in 2025 at a CAGR of 6%. Increased standards of living and strengthened middle class will further drive the demand for improved nutrition, particularly animal protein, and increase focus on food quality and safety, supporting the growth of the animal medicine market in terms of feed additives. Thus, economy growth is expected to drive this market.
