

Food Certification Market Drivers, Restraints, SWOT Analysis, PESTELE Analysis and Business Opportunities by 2027

Adulteration of foods and beverages, health consciousness, and increased consumption of organic products are some of the key factors influencing the market.

VANCOUVER, BC, CANADA, October 22, 2021 /EINPresswire.com/ -- The global [food certification market](#) is projected to reach value of USD 6.90 billion by 2027, according to a recent analysis by Emergen Research. Change in consumers' consumption habits, preference for organic foods, rise in

the living standards, and consumer's requirement for quality products are some of the vital factors driving the market. Formulation of strict regulations regarding food safety has acted as a driver of the market. The report throws light on the current economic landscape of this business vertical and evaluates the top market trends. It has been compiled through significant primary research, including surveys, interviews, and expert analysts' observations.

The Global Food Certification Market report provides full coverage of the companies' data, including details about their production and manufacturing capacity, product portfolio, business overview, revenue, gross profit margins, sales network and distribution channel, financial standing, and market position. Food certification has been essential in resolving critical issues related to supply chain in the food sector. The certification helps in growth of the economy of a nation through imports and exports.

The global food certification market is expected to remain in a competitive and highly fragmented landscape during the forecast period, consisting of a large number of small start-ups, medium enterprises, and large conglomerates. During the forecast period, increasing demand for technological advancements and high diversification in offered products are likely to offer high growth potential to new market players.

Top competitors of the Food Certification Market profiled in the report include:

Lloyd's Register, DEKRA, Intertek, International Certification Ltd, Asure Quality, Bureau Veritas, DNV, Eurofins, TQ Cert, and TUV SUD.

Further Key Findings from Report Suggest:

In September 2020, Intertek and a few other organizations started a new partnership to launch a brand-new shared audit program collectively. This program would lend a helping hand to create a safe food supply chain with its audit, which would help in certification.

In March 2019, DNV established an AI (Artificial Intelligence) research center to offer better and accurate solutions to enhance food surveys, inspection, and audit in Shanghai, China

The ISO 22000 certification focuses on securing and maintaining a supply chain. It has principles of integrated management systems and it is formulated as per the HACCP principles of the Codex Alimentarius and other essential standards in the ISO management systems. This certification helps control the risks in the food industry. ISO 22000 specifies that all the probable hazards expected to happen in a food chain should be identified and assessed. Therefore, it provides means to determine and document why a specific organization needs to control certain types of identified threats..

The report aims to deliver a comprehensive understanding of the Food Certification market growth and expansion in each key region of the world. It offers accurate estimations about the expected market size and growth over the projected timeline of 2020-2027.

For this report, Emergen Research has segmented the global food certification market based on application, type, risk, and region:

Application Outlook (Revenue: USD Billion; 2017–2027)
Processed Meat & Poultry

Organic Food
Dairy Products
Seafood
Beverages
Infant Foods
Others

Type Outlook (Revenue: USD Billion; 2017–2027)

ISO 22000

Halal

Kosher

SQF

FSSAI

BRC

Others

Risk Outlook (Revenue: USD Billion; 2017–2027)

High Risk

Low Risk

Regional Outlook:

The report offers a comprehensive analysis of the current growth opportunities for various regions of the Food Certification market. It gauges the revenue shares of these regions over the forecast timeline. Furthermore, the report analyzes the year-on-year growth rate of these regions over the forecast duration. The leading geographic regions encompassed in the report include North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

Market Overview:

The research report on the Food Certification market is formulated through extensive primary and secondary research along with qualitative and quantitative analysis of vital aspects of the market. The insightful data is further validated and verified by the industry professionals. The report strives to offer deeper insights into the overall market scenario of the Food Certification business sphere.
