- Relationship of materials, textures, and patterns
- And a lot more.

Lori describes the Model Home project for which she won first prize:

"Bright, fresh, clean and "Hamptons-like"...that was the order for this home. Bright blue, celadon, navy and white were woven throughout this amazing Florida home. Cedar shakes on the exterior with dark woods floors and crisp white trim work and cabinetry throughout the interior. Nothing trendy, everything timeless... but injected with a bit of fun. A huge world mural for the kid's playroom, playful handprinted wallpaper for the pool bath and pops of blue everywhere keep things interesting. Classic woodworking and trim

details, traditional fixtures and fittings ground the home throughout. Deep, dark navy rooms with black and white floors add some mystery. Add it all up, a perfect "Hamptons in Florida" home!"

Having received numerous awards in the past, Lori is renowned throughout the North Florida area for her spectacular creations.

Evans Construction & Design specializes in remodeling, design, commercial and residential building.

"We make a point of staying on top of all the current design trends which we then translate and customize according to our customers' needs and lifestyle," adds Lori.
