

# Bitplaza Shopping App Now Supports Litecoin Payments

*Anyone globally can now spend Litecoin on the Bitplaza shopping platform.*

READING, PA, USA, October 23, 2021 /EINPresswire.com/ -- [Bitplaza](#), Inc., a holding company of a leading global bitcoin shopping platform, today announced that the company began accepting [Litecoin](#) payments.

"We're pleased to announce that starting today, you can use Litecoin (LTC) as a payment method on the Bitplaza shopping app. Bitplaza is a giant global shopping app, available on both Google Play and the Apple App Store. Bitplaza already supports Bitcoin and Dogecoin. Our goal with Bitplaza is to create the world's biggest shopping platform that supports cryptocurrency payments. Adding support for Litecoin is an important next step in that direction."

The shopping platform has an immense number of products and a wide range of categories to choose from, comparable to Amazon (NASDAQ: AMZN). You can find all of the latest tech, smartphones such as iPhones, tablets, computers, TVs, video game consoles, and much more. Bitplaza has categories. You can buy anything from electronics, gadgets, tools, pet supplies, toys, books, sports equipment, and even groceries.

Bitplaza supports international shipping, serving customers from all around the world. The shopping platform is accessible globally, available in countries where it's needed most.

One of the most common requests we hear from customers is to be able to pay with more cryptocurrencies on the Bitplaza app. As announced previously, we're also working on support for other popular cryptocurrencies. We just added a listing process for cryptocurrencies, designed in part to accelerate the addition of more payment methods. We're paving our path to that goal by creating the most trusted and easiest way to shop with digital currencies. We will continue adding new cryptocurrencies as we grow the

shopping platform.

Bitplaza app hopes to make shopping enjoyable. Feedback helps us make Bitplaza better for everyone. Reach us at [info@bitplazashopping.com](mailto:info@bitplazashopping.com)

#### About Litecoin (LTC)

(CRYPTO: Litecoin) is a peer-to-peer Internet currency that enables instant, near-zero cost payments to anyone in the world. Litecoin is an open-source, global payment network that is fully decentralized without any central authorities. The open-source software was released under the MIT/X11 license. Mathematics secures the network and empowers individuals to control their own finances. Litecoin features faster transaction confirmation times and improved storage efficiency than the leading math-based currency. Litecoin was an early bitcoin spinoff or altcoin, starting in October 2011 but with substantial industry support, trade volume, and liquidity, Litecoin (LTC) has proven to be a medium of exchange complementary to Bitcoin.

#### About Bitplaza, Inc.
