

Tamino Minerals, Inc. Provides Update on Gold Price and management's outlook on Q4 and its plans for 2022

Management's Outlook 2022

TORONTO, ONTARIO, CANADA, October 25, 2021 /EINPresswire.com/ -- Tamino Minerals, Inc., a mineral exploration, and development company, ("Tamino" or the "Company") (OTC Markets: TINO - Pink Current Information), is pleased to update shareholders that we are proceeding with the Exploration of our Mining Projects in the Republic of Mexico. Mexico has a mining history of more than 500 years, and the current administration has expressed that it embraces international support and investment to continue to develop its natural resources.

Our plans to build a Geologic Information System -GIS- that will include the most prolific regions within both States are on implementation stage. Our Projects are being explored in some of the best places in the State of Sonora, ranging from the one located in the North Portion of the Mohave Shear to the second project, a Copper-[Gold](#) Porphyry located several miles to the Southeast of Nacozari Copper Mine. A third one Exploration Project is located close to "La Colorada" and "Mulatos" Mines in the Municipality of Villa Pesqueira.

"These Projects are consistent with Tamino's strategy for 2022, to secure high-grade gold projects with significant upside potential and located in favorable mining jurisdictions" stated Pedro Villagran-Garcia, President and CEO for Tamino Minerals, Inc.

Our plans are currently to continue to invest on Exploration as our largest shareholders do believe that gold is going to increase in value substantially in the next few months.

It's important to mention that evidence of inflationary pressures mount. Consumer Price Inflation running near a 30-Year High in the U.S. and growing concern that the problem could be worse that policymakers have anticipated.

On Friday, Federal Reserve Chairman Jerome Powell acknowledged that inflation pressures "are likely to last longer than previously expected," noting that they could run into next year. The central bank leader added that he expects the Fed soon to begin pulling back on the extraordinary measures it has provided to help the economy that critics say have stoked the inflation run.

Jack Dorsey tweeted last Friday that he sees the inflation problem escalating around the globe. He mentioned in his Twitter Account that "Hiperinflation is going to change everything. It's happening." Dorsey is currently both the CEO of Twitter and Square.

TAMINO MINERALS, INC.

TAMINO MINERALS INC. is exploring for gold and other mineral deposits within a prolific Gold producing State, Sonora. Under SEC Fair Disclosure Guidelines, persons interested in Tamino Minerals can expect disclosures and updates at OTC Markets, the company's website, www.taminomineralsinc.com
