According to the organizers, "these Awards are the benchmark of industry excellence. From categories detailing remote working solutions and solution providers, to application developer & ISVs and suppliers, it was an event to remember."

The shortlist for the category Enterprise (on-premises/hybrid) Solution of the Year comes from 2020, as IT Europa suspended winner selection because of the COVID-19 pandemic. The IBA's award-winning project is an SAP S/4HANA solution that automates major business processes at the Georgian Railway.

Nino Kubinidze, CIO and Director of the World Business Solutions branch of the Georgian Railway, said: "We feel so overwhelmed by the joy of seeing you win the European IT & Software Excellence Award!! Congratulations on your outstanding achievement!
This is a milestone, that is adding another dimension to your overall professional accomplishments. We believe this is only the beginning and there are greater joint projects ahead of us. On behalf of the JSC Georgian Railway, congratulations again on your well-deserved success!!"

Sergei Levteev, IBA Group Chairman, added: "Development and implementation of software solutions is what we do every day. We strive to make our customers' life easier and more comfortable, and feel happy, if our clients are satisfied. But when a solution is recognized by a high-profile international jury, this inspires us even more. I would like to say thanks to IT Europa for the award and to the Georgian Railway for their trust and cooperation. And for sure, we will use this recognition as a springboard for greater progress."

About European IT & Software Excellence Awards
A leading pan-European contest for ISVs, Solution Providers, and Systems Integrators and their vendor and distributor partners, the European IT & Software Excellence Awards reward excellence in software development among European IT and telecommunication solution providers.
The European IT & Software Excellence Awards 2021 is the 13th edition of the awards (or the 12th, as the 2020 awards merged with the 2021 awards), where companies from across Europe demonstrate their ability to deliver innovative IT solutions to clients.
The 2021 awards are split into the following four categories.
• For MSPs, VARs, and integrators, with attention given to the solutions they have developed
• For application developers and ISVs, looking into the innovative solutions they have created over the course of the year
• For suppliers, highlighting those vendors, distributors, and service providers that strive to support their partners in achieving excellence
• For remote working solutions that highlight the best remote working tools for collaboration

and task management (new addition in 2021).
