

# Distributed Antenna System Market Report 2021, Industry Analysis, Share, Size, Trends and Forecast 2026

SHERIDAN, WYOMING, UNITED STATES, October 29, 2021 /EINPresswire.com/ -- According to IMARC Group's latest report, titled "[Distributed Antenna System Market](#): Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026, the global distributed antenna system market reached a value of US\$ 7.12 Billion in 2020. Looking forward, the market is expected to exhibit moderate growth during 2021-2026.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

A distributed antenna system (DAS) refers to an antenna network connected to a central source and distributed through an area to enhance network efficiency. The antenna spacing ensures maximum coverage by each unit without overlapping the other. DAS is a power-efficient solution where every antenna does not require installation at a higher level, unlike its conventional counterparts. It can transmit the mobile signal at full strength to any connected remote antenna, thereby being suitable for providing wireless coverage irrespective of indoor or outdoor installation.

## Market Trends

The increasing penetration of smart devices along with the rising demand for extended network coverage and uninterrupted connectivity is catalyzing the DAS market. Several network service providers are investing in DAS upgradations for offering better services to the subscribers using data-intensive applications. Furthermore, the significant players are implementing multi-

operator and -technology resources to synchronize various elements of the mobile operator's equipment. They are also enhancing the availability of hybrid active/passive DAS to expand their market shares. Moreover, the distributed antenna system (DAS) market is further anticipated to be catalyzed by the advent of smart cities. The smart infrastructures rely on public Wi-Fi networks and cellular operators to offer various services, such as [education](#), healthcare, infrastructure management, safety and security, traffic management, water management, etc.

List of Key Companies Covered in this Market Report:

American Tower Corporation  
Boingo Wireless Inc.  
Cobham Wireless  
Comba Telecom Systems Holdings  
CommScope Inc.  
Corning Incorporated  
Dali Wireless Inc.  
TE Connectivity  
Westell Technologies Inc.  
Zinwave (McWane Inc.)

The report has segmented the market on the basis of offering, system type, coverage, technology, end-use and geography.

Breakup by Offering:

Components  
Services

Breakup by System Type:

Active  
Passive  
Digital  
Hybrid

Breakup by Coverage:

Indoor  
Outdoor  
Hybrid

## Breakup by Technology:

Carrier Wi-Fi

Small Cells

[Self-Organizing Network](#)

Others

## Breakup by End-Use:

Manufacturing

Healthcare

Government

Transportation

Hospitality

Public Venues

Education

Telecommunication

Others

## Breakup by Geography:

North America (U.S. & Canada)

Europe (Germany, United Kingdom, France, Italy, Spain, Russia, and Others)

Asia Pacific (China, India, Japan, South Korea, Indonesia, Australia, and Others)

Latin America (Brazil, Mexico)

Middle East & Africa

## Key highlights of the report:

Market Performance (2015-2020)

Market Outlook (2021- 2026)

Porter's Five Forces Analysis

Market Drivers and Success Factors

SWOT Analysis

Value Chain

Comprehensive Mapping of the Competitive Landscape
