Testimonials from Customers

Part of what won Jones Excavating & Plumbing this award is their commitment to superior customer service. Take a look at what real customers had to say about their experiences working with the plumbers:

"Was able to hire their Professional Plumber to install a residential hot water heater at an hourly rate and save \$100's over what it would have cost to have it done with other Plumbing services that charge a 'standard' rate. Work done quickly and professionally." - Tom Campbell, Google Review

A problem was discovered a few months after the service was performed. They responded immediately, fixed the situation and were very professional. Great customer service and I would highly recommend." - Daphne Morison, Google Review

"Can't say enough great things about Jones Excavating! I hired them to replace a main water line on our farm (300+ ft run), and they were competitively priced, and most importantly worked around a complex schedule on our end, and got it done. Josh/owner also came back out on a Sunday to finish the final hook up, as we were out of town. I would recommend their services to anyone, and thank them for their customer service!" Robert Howland, Google Review

"My experience with Jones Excavating & Plumbing was awesome. I needed a plumbing repair in my home. I was impressed from my initial phone call to the office all the way to completion of the job. I own a service related small business in Northern CO and I can appreciate the level of service I received from this company and its people. I will never call anyone else should the need for service come up again." Desiree Landt, Google Review
