About Women in Consumer Finance

WCF is a truly special event. It's not at all about consumer finance, but about lifting women up without putting men down. The conference is designed to help women at all career levels to actively build their group of "people," to build confidence and communication skills and to overcome shared challenges. The connection is that we do all of this in the context of our common industry, so the relationships built are most likely to be directly useful.

Women in Consumer Finance is a community of women dedicated to building others up and sharing experiences that impact us all. The connections and bonds that are created at WCF are unique and hard to come by in day-to-day working scenarios.

No matter where you are in your career, whether you're just starting out, or managing large teams and projects, you have something to learn and teach others. To take that next step in your career, it's important to put yourself in new environments that push you to be the best version of yourself. Across 3 days, Women in Consumer Finance provides that safe and open environment to facilitate deep connections amongst all of our attendees.
