

# Aspire Systems announces the Launch of Bank in a Digital Box for Small Banks and Lending Institutions

*Aspire Systems' Bank in a Digital Box (BiDB) offers a quick and deployable solution customized to the requirement of small banks and lending institutions*

GLOBAL, October 26, 2021

/EINPresswire.com/ -- Aspire Systems, a global technology services firm, today announced the launch of [BiDB - Bank in Digital Box](#) offering that enables small banks and lending institutions to blitz scale their digital transformation initiative in as little as 90 days. With

many existing banking systems requiring significant levels of modernization, 'Bank in a Digital Box' (BiDB), is set to help the smaller segments of financial institutions leverage the use of digital banking platforms. BiDB will accelerate the path to digitization driven by scalability while meeting business efficiency and keeping up with customer expectations.

“

We are excited to launch Bank in a Digital Box as a readily deployable solution that can be easily implemented on-premise or on the Cloud, enabling the transformation process to be a seamless one”

*Suresh Ranganathan*

As the need for digital banking services has become the focal point of every small bank's growth and business strategy, Aspire Systems' versatile BiDB solution puts together pre-defined modules that can be quickly snapped together to achieve digital at scale in a cost-effective manner. “We are excited to launch Bank in a Digital Box as a readily deployable solution that can be easily implemented on-premise or on the Cloud, enabling the transformation process to be a seamless one”, said Suresh Ranganathan, Vice President & Global Head of Banking Services, Aspire Systems.

Suresh added, “In lieu of having year-long implementation cycles, we worked on creating pre-defined modules positioned across core functionalities along with add-on solutions that will

work across the front, middle and back office layers. Our BiDB offering is constructed on three major tenets which include the Base Solution comprising of product and customer-segment specific business functions, our homegrown Point Solutions that fills the gaps of the Base Solution and Marketplace Integrations that support supplementary functions.”

Aspire’s Bank in a Digital Box is built to fit the priorities of small banks which include the integration needs, customer segmentation as well as its architectural complexities.

Launched in four different Avatars targeting [Neo/Challenger Banks](#), Credit Unions, Microlending institutions and Building Societies. These Avatars are further enhanced with Regional Cladding to provide localized experiences that include regional operations, cultural alignments, integration ecosystems and regulatory requirements.

The Neo Avatar of Aspire's BiDB is running successfully with the implementation of the Global Banking Application Suite in 90 days with MVP Business model and best of breed marketplace solutions.
