

OpKey a Part of the Latest Gartner Report on How to Test Enterprise SaaS Applications

This research outlines the extent of ownership and testing that varies based on scheduled updates, integration, extension, and user needs

DUBLIN, CALIFORNIA, UNITED STATES, October 26, 2021 /EINPresswire.com/ -- [OpKey](#), the one-and-only Process Mining enabled Continuous Test Automation platform for enterprise SaaS applications today announced that it has got mention in an important Gartner report "Quick Answer: How Should We Test Enterprise SaaS Applications?"

According to Gartner, "Utilizing enterprise applications delivered as SaaS does not remove application and software engineering leaders and their teams from owning the quality of the

“

OpKey's continuous testing platform enables customers to keep up with the rapidly increasing pace of releases, provides automated validation for the specific features and end-to-end business processes”

Pankaj Goel, CEO, OpKey

user experience. This research outlines the extent of ownership and testing that varies based on integration, extension, and user demands. Organizations that acquire enterprise SaaS applications must invest in Impact analysis and Automation Technologies as the key aspects when the cadence of change, amount of extension and integration, and business criticality are high”.

OpKey's Real-time Change Impact Analysis automatically scans the new code, analyzes security issues, and identifies test coverage gaps to deliver risk-based test automation. OpKey offers End-to-End test validation across packaged

apps, custom apps, web apps, databases, APIs, and beyond.

“The cadence of change, amount of extension and integration pose implementation challenges, cost impacts, and most importantly, an increased level of complexity for enterprise SaaS applications. OpKey's continuous testing platform enables customers to keep up with the rapidly increasing pace of releases, provides automated validation for the specific features and end-to-

end business processes. " said [Pankaj Goel, CEO, OpKey](#).
