Note: We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Global Agricultural Films Market Trends and Drivers:

At present, there is a considerable increase in the demand for agro-based products around the world. This, in confluence with the growing global population and depleting arable land, represents one of the key factors positively influencing the market. Besides this, leading manufacturers are utilizing compostable and bio-based raw materials for the manufacturing of environment-friendly agricultural films. This, along with the rising adoption of horticulture practices worldwide, is strengthening the market growth. Other significant factors, including increasing concerns about environmental risks and the development of innovative product variants, such as bags for grain storage, are projected to stimulate the growth of the market.

Agricultural Films Market Segmentation:

The report has segmented the market on the basis on region, type and application.

Breakup by Type:

- Low-Density Polyethylene
- Linear Low-Density Polyethylene
- High-Density Polyethylene
- Ethylene Vinyl Acetate
- Others

Breakup by Application:

- Greenhouse
- Silage
- Mulching
- Others

Breakup by Region:

- North America: (United States, Canada)
- Asia-Pacific: (China, Japan, India, South Korea, Australia, Indonesia, Others)
- Europe: (Germany, France, United Kingdom, Italy, Spain, Russia, Others)

Latin America: (Brazil, Mexico, Others)

Middle East and Africa

Who are the Major Agricultural Films Market Key players?

The report provides a detailed analysis of the market leaders, including.

Ab Rani Plast Oy, Armando Alvarez S.A., BASF SE, Berry Global Inc., Exxon Mobil Corporation, Kuraray Co. Ltd, Novamont S.p.A., RKW Hyplast, The Dow Chemical Company and Trioplast Industrier AB.
