

# OffGamers Adds RMB Currency To Their Credit Card Payment

SINGAPORE, October 29, 2021

/EINPresswire.com/ -- Customers can now purchase products from [OffGamers](#) using the RMB currency via the credit card payment option.

The RMB currency addition will apply to all [Visa](#) and [Mastercard](#) credit cards which primarily provides residents from China a more convenient option to purchase OffGamers' products.

As RMB support was previously unavailable for credit card users, many customers that use RMB were forced to convert to the required currency.

The inclusion of RMB currency will also create a better UX and user experience as buyers will be using an interface similar to their credit card.

“

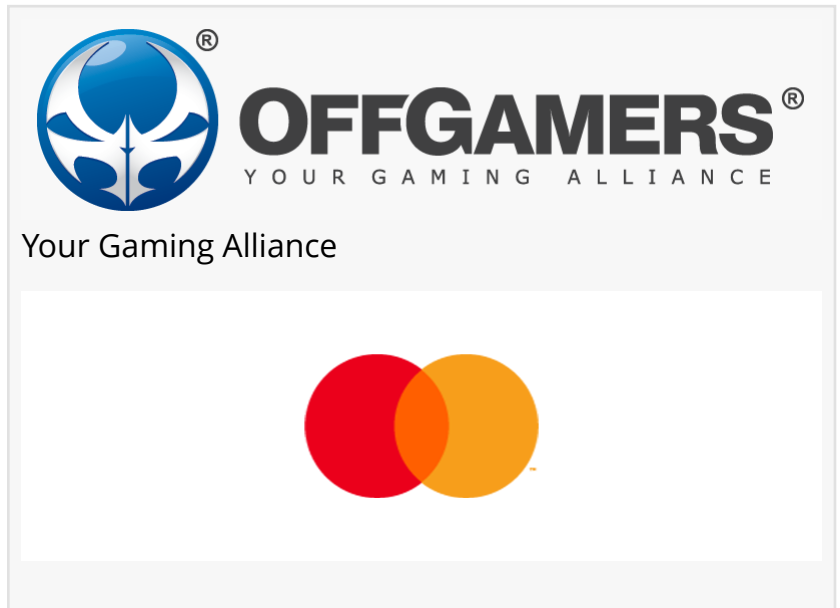

With the RMB currency, not only would we be able to provide better accessibility, but customers can also purchase our products without any conversion rates”

*Karyn Thng, Strategic  
Partnership Director from  
OffGamers.*

The addition of the RMB currency to OffGamers' credit card payment system means that OffGamers now supports up to 18 currencies worldwide.
