

# Hot Tobacco Global Market To Grow At Rate Of 41% Through 2025

*The Business Research Company's Hot Tobacco Global Market Report 2021: COVID 19 Growth And Change To 2030*

LONDON, GREATER LONDON, UK, October 27, 2021 /EINPresswire.com/ -- According to the new market research report '[Hot Tobacco Global Market Report 2021: COVID-19 Growth And Change](#)' published by The Business Research Company, the hot tobacco market is expected grow from \$7.53 billion in 2020 to \$10.63 billion in 2021 at a compound annual growth rate (CAGR) of 41.2%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$42.41 billion in 2025 at a CAGR of 41%. The approvals by the government bodies are anticipated to drive the demand for the hot tobacco products market during the period.

The hot tobacco products market consists of sales of hot tobacco products and its related services. Hot tobacco is also known as heated tobacco or heat-not-burn tobacco or hybrid tobacco. Heated Tobacco Products (HTPs) produce aerosols containing nicotine and other chemicals, which are inhaled by users through the mouth. These use specific tobacco products to be heated at temperatures below combustion levels. Hot tobacco products release flavors with nicotine and allow the user to enjoy tobacco without combustion.

## Trends In The Global Hot Tobacco Market

The launch of new heated tobacco products across the globe is a leading trend driving the growth of the hot tobacco products market. For instance, in September 2019, British American Tobacco (BAT), cigarette and tobacco manufacturing company based in London, England,
