Further key findings from the report suggest

- The overall nutritional supplement sales for children are expected to rise during the forecast period. It was observed that Chinese and Indian parents were willing to spend relatively large amounts of money on the health of their children in relation to family income.
- A new trend emerging in the dietary supplements market is the need to use organic or sustainable ingredients. This trend is being driven by two fundamental shifts in this industry: the need to consume 'healthier' ingredients and consumers' increasing concerns for sourcing 'sustainable' products
- Variations in the price of the upstream product are expected to influence the production cost of organic Almond. The cost of production is also an important factor which could affect the [market price](#).
- Nutraceuticals & Baby Food sub-segment had a market share of 28.6% in 2019 due to its remarkable usage of the Almond based formulation for making end-use baby food products & nutritional additives.
- In October 2019, Blue Diamond, a US-based co-operative launched a new beverage portfolio comprising Almond extract, naming Almond Breeze Almondmilk in Mexican Hot Chocolate flavor.
- In April 2018, Starbucks India introduced its almond milk line ups to its non-dairy milk roster. Due to the huge demand for the plant-based alternatives of dairy, the Seattle-based coffee house chain launched this product line up in India.
- Key participants include Whitewave Foods, Blue Diamond Growers, Daiya Foods Inc., Tofutti Brands Inc., SunOpta Inc., Fine Japan Co. Ltd., Hain Celestial Group, Galaxy Nutritional Foods, Inc., Nature's Choice B.V., and Vitasoy Australia Products Pty. Ltd., among others.
