“We are huge James Bond fans, huge OMEGA fans, and truly huge fans when these two brands collaborate on anything relating to watches and timekeeping,” explained Ron Gordon, proprietor of Ron Gordon Watch Repair. “We are so excited about the new movie and really excited to see the first OMEGA Seamaster to come into the shop. The blog post has links more information about the film and about the watch. It explains, for examples, that this was the first film in the James Bond franchise that used 65 mm IMAX film cameras and the first to have a budget in excess of a quarter million dollars. As for the OMEGA watch, it's exciting because it is relatively affordable at less than \$10,000 and has many key design-features. Plus its unique orange and black coloring builds on many themes in the movie, making it stylish on any New Yorker's wrist. As Christmas and the Holidays approach, this “non-limited” watch also makes an excellent entre-level gift for any young man who may be fascinated by fast cars, beautiful

women, and the lifestyle made famous in the James Bond franchise.
