

Proptech Stock Metrospaces (OTC: \$MSPC) Seeking Beta Testers for MetroHouse, MetroCrowd Platforms

Metrospaces, Inc. (OTC: MSPC), a PropTech company powered by Shokworks, will launch a beta version of platforms - MetroHouse, MetroCrowd

NEW YORK, NY, UNITED STATES, October 28, 2021 /EINPresswire.com/ -- Proptech stock news from Investorideas.com Newswire: Metrospaces, Inc. (OTC: MSPC), a PropTech company powered by Shokworks, will launch a beta version of its MetroHouse platform in mid-November, and one of its MetroCrowd platform in mid-December, and is looking for interested shareholders and potential investors to serve as testers. MetroHouse is designed to completely reframe the co-living model and to create unique and luxury residential destinations for digital nomads or nomadic capitalists who have used this pandemic to support the concept of company building from anywhere on the planet. MetroCrowd is a real-estate tokenization platform that democratizes the real-estate investing process.

“We’re excited for our shareholders and potential investors to begin testing out MetroHouse and MetroCrowd,” Metrospaces CEO Oscar Brito said. “The feedback these industry experts provide will help us further highlight the competitive advantages and key features MetroHouse brings to the co-living ecosystem and MetroCrowd brings to real-estate investing.”

MetroHouse includes everything one needs to make the most of city life in one bill – rent,

furnishings, high-speed WiFi, utilities and room cleaning. MetroHouse users will be part of a community, sharing wonderfully designed spaces with the comfort of being able to retreat to a fully furnished room at the end of the day.

MetroCrowd upgrades the real estate market to the 21st century, allowing for the partial or total tokenization of properties. This innovation allows for automation of middlemen processes, increased liquidity, lowered barriers to investment and improved transparency. Due to these qualities, tokenization has been hailed as the beacon of future real estate investment.

The beta testing for each platform will include 200-300 users with mocked data content to provide a feel of what the live app will be. Testers will have the opportunity to review and test the web app as well as how to apply to rent a co-living space. The test will last 15 calendar days, with the launch of the full app happening in the second quarter of 2022. Those interested in becoming beta testers for MetroHouse can apply via this Google Form <https://bit.ly/3nxqXvT> prospective MetroCrowd beta testers can apply at this Google <https://bit.ly/2ZyhGLO> Feedback will be collected through dedicated Telegram channels.

"We feel good about where we are with the MetroHouse and MetroCrowd apps," said Alejandro Laplana, CTO of Metrospace. "It's an exciting time to be part of the prop-tech industry and we can't wait to see how beta testers respond."
