

Global Dentistry Medical Lasers Market Trends, Strategies, And Opportunities 2021-2030

*The Business Research Company's
Dentistry Medical Lasers Global Market
Report 2021 : COVID-19 Growth And
Change*

LONDON, GREATER LONDON , UK,
October 28, 2021 /EINPresswire.com/ --

According to the new market research
report 'Dentistry Medical Lasers Global
Market Report 2021: COVID-19 Growth

And Change' published by The Business Research Company, the [dentistry medical lasers market](#) is expected to grow from \$0.16 billion in 2020 to \$0.171 billion in 2021 at a compound annual growth rate (CAGR) of 6.9%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$0.242 billion in 2025 at a CAGR of 9%. The rising prevalence of oral diseases contributed to the growth of the dental lasers market.

The dental lasers market consists of sales of dental lasers and related services by entities (organizations, sole traders and partnerships) that manufacture dental lasers. Dental lasers are used in the treatment of medical conditions related to teeth. These lasers are used to perform tasks such as gum reshaping, removal of bacteria during the root canal, biopsy or lesion removal. Only goods and services traded between entities or sold to end consumers are included.
