

Global Warehouse Robotics Market Outlook Analysis on Key Players - Fanuc, Honeywell, IAM Robotics, Fetch Robotics

Statistics MRC report, Warehouse Robotics Market Forecasts to 2026- Global Analysis Application, Key Players, Types, End User and By Geography

GAITHERSBURG, MARYLAND, UNITED STATES, October 28, 2021

/EINPresswire.com/ -- According to

Statistics MRC, the Global Warehouse

Robotics Market is accounted for \$2569.23 million in 2017 and is expected to reach \$7895.98 million by 2026 growing at a CAGR of 13.3% from 2017 to 2026. Some of the key factors influencing the market growing E-Commerce industry and need for improved value and reliability in warehouse operations. However, lack of skilled workforce is restraining the market growth. Integration of industry 4.0 with warehouse robots is creating ample opportunities for the market growth. On the basis of function, it is categorized into pick & place, palletizing & depalletizing, transportation, and packaging. Pick & place is the dominant function performed by warehouse robotics, followed by packaging. Transportation will be the fastest growing function at a CAGR of 12.3% during the forecast period. By geography, Asia Pacific is anticipated to grow during forecast period due to rapid growth of e-commerce, electronics & electrical, food & beverage, metal & machinery, and automotive that are already conventional.

Some of the key players in this market include ABB Ltd., ATS Automation Tooling Systems, Inc, Honeywell International, Inc. (Intelligrated), Fanuc Corp., Omron Corp. (Adept Technology, Inc.), IAM Robotics, Fetch Robotics, Inc., Kuka AG, SSI Schaefer AG, Locus Robotics, Yaskawa Electric Corp., Magazino GmbH, Amazon.Com, Inc. (Amazon Robotics), Wynright Corp. and Invia Robotics, Inc.

Warehouse Robotics Market report provides an in-depth study and forecast about the industry covering the complete overview of the market that will assist convey clients and business-making strategies. The industry's supply chain and market size, in terms of value, have been derived by

Warehouse Robotics - Global Market Outlook (2017-2026)

extensive research methods. Our report enables readers to understand details of the market, latest trends, key drivers and constraints, opportunities, threats, volume and value forecasts, and various investment opportunities for manufacturers operating in the global and regional markets. Warehouse Robotics Market report also offers company profiling with detailed strategies, financials, key products, and recent developments along with SWOT analysis of profiled players and Porters five forces for deep insights.

This report offers market monitoring related to a particular area of clients interest and provides up to date information related to strategic initiatives like mergers, acquisitions, partnerships, expansions, product launches for leading companies on a regional scale depending on the clients subscription period for various industries or markets. Our data is constantly updated and revised by team of research experts so that it always reflects the recent trends and information. We have high experience in research and consulting for different business domains to provide to the necessities of both individual and corporate clients. Our experienced team uses proprietary data sources and different tools and methods to gather and analyze information.

Functions Covered:

- Palletizing & Depalletizing
- Packaging
- Pick & Place
- Transportation
- Storage
- Trans-shipments
- Goods Consolidation
- Order Fulfilment
- Goods Distribution

Components Covered:

- Microprocessors and Microcontrollers
- Programmable Logic Controller (PLC)
- Sensors
- Actuators
- RF Module (RFM)

Types Covered:

- Cylindrical Robots
- Scara Robots
- Mobile Robots
- Parallel Robots

- Stationery Articulated Robots
- Gantry Robots
- Cartesian Robots
- Automated Storage and Retrieval
- Articulated Robots
- Fixed Robots

System Types Covered:

- Locus Robotics System
- Scallog System
- Knapp Open Shuttle
- Fetch Robotics Freight
- Swisslog Carry Pick

[Motion Control Market Forecasts to 2028](#) – Global Analysis By Type (Computerized Numeric Control, General Motion Control), System (Open Loop, Closed Loop), Product (PLC-Based, PC-Based) and By Geography

[Cone Crushers Market Forecasts to 2028](#) – Global Analysis By Power Source (Diesel Connection, Electric Connection, Dual Connection), Offering (Stationary Crushers, Portable Crushers, Mobile Crushers) and By Geography

About Us:

Statistics MRC research reports and publications are routed to help clients to design their business models and enhance their business growth in the competitive market scenario. We have a strong team with hand-picked consultants including project managers, implementers, industry experts, researchers, research evaluators and analysts with years of experience in delivering the complex projects. We track 30+ industries and cover 800 market segments.
