SCHOTT AG.

#### Market Overview:

The packaging industry plays an important role, adding value to various manufacturing sectors including pharma, FMCG, agriculture, and retail industries. It is considered as one of the fastest growing industries due to growth in e-commerce industry, especially during Covid 19 pandemic. Containment, communication, protection, and utility are the four major functions of packaging that are intended to maximise sales and profits while reducing losses and wastage, and they are all critical for improving the consumer and overall brand experience. Packaging is today seen as a vital link between consumers and brands, allowing them to convey successfully that hygiene is upheld, safety is prioritized, and service or product quality is not compromised.
