

Corrugated Packaging Market Size 2027 | Industry Growth and Demand

The corrugated packaging industry is witnessing an increasing demand owing to the benefits of corrugated paper which can be recycled.

NEW YORK, NY, UNITED STATES,
October 29, 2021 /EINPresswire.com/ --
The rise in the packaging of food and beverage, coupled with increasing application in pharmaceutical packaging solutions, is driving the [Corrugated Packaging market](#).

The global Corrugated Packaging Market is forecast to reach USD 352.47 Billion by 2027, according to a new report by Reports and Data. Corrugated boxes are thick paper material consisting of a compressed layer of paper pulp. It is extensively used for packaging as its easy-to-open and reseal packaging designs provide benefits to the end-users. Besides, it is environmentally friendly and can be recycled. Retailers and product manufacturers also enjoy great benefits from corrugated packaging.

Rapid urbanization has changed the lifestyle of the people and, in turn, has increased the prevalence of packaging over a broad aspect, thus, augmenting the demand for the market product. The growing awareness among customers for the sustainable packaging material with the reusability of corrugated packaging is fostering the market demand. However, the usage plastics due to its cost-effective, durable, and reusable properties are hampering the market demand.
