

Orolia to Exhibit Latest Resilient Timing & Synchronization and Testing & Simulation Solutions at FEINDEF 2021

Spain's Leading Defense and Security Tradeshow Brings the Global Defense and Security Sectors Together to Encourage a Global Response to Security Challenges

LES ULIS, FRANCE, October 29, 2021 /EINPresswire.com/ -- Orolia, the world leader in Resilient positioning, navigation and timing (PNT), is exhibiting at Feria Internacional de Defensa y Seguridad (FEINDEF) 2021 – Spain's leading Defense and Security tradeshow in Madrid November 3-5.

Orolia will showcase its full suite of PNT products such as the DISA approved [SecureSync Platform](#) as well as the All-in-One Resilient Positioning, Navigation and Timing System [VersaPNT](#) but also Atomic clocks & Oscillators, such as the [mRO-50](#), SARBE Combat Search & Rescue Beacons and Testing & Simulation Solutions.

Orolia will also display White Rabbit Solutions from its partner Seven Solutions like the White Rabbit Z16. White Rabbit-based technologies provide sub-nanosecond synchronization accuracy, which formerly required dedicated hard-wired timing systems, with the flexibility and modularity of real-time Ethernet networks. A White Rabbit network may be used solely to provide timing and synchronization to a distributed electronic system, or to provide both timing and real-time data transfer.

•What: FEINDEF 2021

Orolia logo

SecureSync® Time and Frequency Reference System is a secure, yet flexible, timing platform

- When: November 3-5, 2021
- Location: Booth #H8-G13
- Media Interviews: Available before, during and after the show.

About Orolia

Celebrating its 15th anniversary, Orolia is the world leader in Resilient Positioning, Navigation and Timing (R-PNT) solutions that improve the reliability, performance and safety of critical, remote or high-risk operations, even in GPS denied environments.

Orolia provides virtually fail-safe GPS/GNSS and PNT solutions for military and commercial applications worldwide. www.orolia.com

VersaPNT is the first compact, all-in-one Resilient Positioning, Navigation and Timing (R-PNT) system.

Orolia's mRO-50 is a miniaturized Rubidium oscillator.

The most advanced product ever to bring a new level of performance to the Personal Locator Beacon technologies. SARBE Personal Locator Beacons are carried by aircrew around the world as part of their essential flight equipment.
