EL CAJON, CA, UNITED STATES, November 2, 2021 /EINPresswire.com/ -- Solar stock news from Investorideas.com Newswire and RenewableEnergyStocks.com - Solar

Integrated Roofing Corp. (OTC: SIRC), an integrated, single-source solar power and roofing systems installation company, today announced that it has finalized the completion of PCAOB audited financial statements for the fiscal years ended February 28, 2021 and February 29, 2020 and is preparing for an expected near-term application to uplist to the OTCQB® Venture Market.

"Given our recent acquisitions, we have been able to build a truly impressive platform company and completed the necessary audits for an expected near-term uplisting to the OTCQB Venture Market," said David Massey, Chief Executive Officer of Solar Integrated Roofing Corp. "This enables us to prepare to refile our Form 10 with the SEC, which can be filed once we finalize the audit of each of our subsidiaries acquired during the 2022 fiscal year.

"In the meantime, our near-term anticipated uplist to the OTCQB Venture Market will help to improve visibility and liquidity of our shares within the capital markets. This is a critical next-step as we march towards our end-goal of a Nasdaq uplisting. We believe our transformation into a national brand and the corresponding rapid sales growth have combined to create a well-positioned company that can provide sustainable value to a new tier of institutional investors over the long-term," concluded Massey.
