

FDB Construction Company Continues Delivery of Excellent Service to Clients

CHICAGO, ILLINOIS, UNITED STATES, November 2, 2021 /EINPresswire.com/ -- FDB Construction Company is excited to share the news about its unceasing effort to provide outstanding service for home and business building needs, room additions, and renovations.

For the past several years, FDB has been a name synonymous with excellence, quality, and service. In an industry where shortcuts are often taken, it has been a model of consistency and reliability.

"We pride ourselves on delivering the best possible service for our clients," states FDB President Robert Berg. "Achieving excellence requires dedicated effort."

To realize FDB's mission, Robert and his team work hands-on starting from design consultation all the way through construction completion. They take great care with every element of construction, working closely with clients to ensure that each project meets their needs and that it is done with the utmost quality.

The company's customer satisfaction truly shows through in the finished product - attention to detail that can be seen, felt, and experienced.

Its most satisfied clients include families who requested it to remodel more than 100-year-old homes. Among them were Bill and Rachel who hired FDB to remodel their Lincoln Park property which was built way back in 1886. The couple was very grateful for the team's commitment to meet their requests and answer their questions along the way. They recommend the company for its members' patience, proven expertise, and excellent project management practices.

Besides the couple and other families, the firm also worked with a number of businesses such as Kaltsouni Medhi, Inc. FDB handled two projects for them. The successful collaboration between the two has produced an improved residential/office and commercial building in Chicago and a distribution building addition in Elk Grove, IL that is consistent with the client's needs and preferences.

Furthermore, other clients cite FDB's dedication to conducting prompt assessments of situations and needs. Because of this, Bob and his team of professionals are able to provide a detailed discussion of every part of the process while giving clients proper expectations on quotations and completion estimates.

Clients also appreciate the company's flexibility in working with a client to accommodate most requests they have, as well as its commitment to making sure that everything is completed on time or even before.

Upon receiving such positive responses from their clients and partners, FDB Construction Company is proud to say that it will continue its effort to provide the best possible service for all its clients, guiding them throughout the process and helping them realize their goals either for their homes or businesses.

About

FDB Construction Company is a Chicago-based firm that guides its clients throughout the entire building process starting from conceptualization up to project completion.

Holding up a standard for excellence and quality, it provides a variety of construction services such as the erection of high-end residential properties, exterior and interior renovations for high-rise buildings, condos, offices, and houses, and room additions. For more information,
