

Four Weeks To Go until the 14th Annual Energy from Waste Conference

SMi Group reports: only four weeks remain until the 14th Annual Energy from Waste Conference, register today to secure your place.

LONDON, NON UNITED STATES OR CANADA, UNITED KINGDOM, November 2, 2021 /EINPresswire.com/ -- Only four weeks remain until the 14th Annual [Energy from Waste](#) Conference commences on 1st – 2nd December 2021 in London, UK. This conference will provide delegates with the chance to network with leading technology and service providers. With case studies from the leading [Energy from Waste](#) plants within UK and Europe the event will give an overall look into all aspects of running a successful facility.

Interested parties can register at: www.efw-event.com/PR5EIN

The Energy from Waste conference will welcome a range of presentations with insightful developments as well as case studies with leading energy companies such as Suez and Municipal Holding Company.

Case Study 1 will be presented by Samir Dendoune, Directeur Upstream Management et Communication, Suez who will discuss “Thailand: a promising context for waste recycling and recovery” covering:

- Overview of regulatory drivers
- Actual business cases
- Bower plant project running on industrial waste and supported by authorities under power

licence and Feed-In-Tariff for electricity – project success and running plant
oCircular plastic recycling: from used LDPE films to plastic chips for industries - project success and running plant

Case Study 2 will be led by Jakub Bator, Member of the Management Board, Waste Thermal Treatment Plant Director, Municipal Holding Company on “Waste-to-Energy in Poland: Key Challenges and Opportunities” covering:

- What is the status of MSW management in Poland?
- Challenges Facing the Waste-to-Energy Industry
- How should the government respond to these challenges?
- What are the advantages of developing the WTE industry?
- Conclusions and Recommendations

This year's conference will explore how technological innovations and new policies assist the growth of the Energy from Waste market in a decarbonised world. With only 4 weeks to go, register at: www.efw-event.com/PR5EIN
