Major players analyzed include Citrix Systems Inc., Dell Inc., Google Inc., Microsoft Corporation, Oracle Corporation, Parallels International GmbH, Red Hat Inc., Symantec Corporation, SAP SE, and VMware Inc.,

Impact of COVID-19 on Application Virtualization Market:

- Organizations are promoting work from home/anywhere policies, additionally the growing trend of BYOD has also set a deeper impact on cloud and virtualization based services. This scenario has led the organization to adopt effective software for ensuring the confidentiality of information within the devices and also protecting its integrity from theft or damage.
- Organization's should take proactive steps by advising their staff and customers to be more vigilant and cautious especially when opening links, emails or documents related to the subject COVID-19. Organizations should ensure their detection and alerting capabilities are functional while keeping an eye on the impact of having many remote workers.
