As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the purchase behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Market Trends:

The global market is primarily driven by the rising number of individuals who follow Islamic Sharia norms as a part of their religious beliefs. Along with this, the increasing awareness regarding the safety, hygiene and reliability offered by halal cosmetics among the general

population is also creating a positive outlook for the market. Furthermore, the rising preference toward the usage of safe, natural and eco-friendly cosmetics among individuals is providing a boost to the market growth further. Some of the other factors contributing to the market growth include the easy product availability via online and offline organized retail channels and the widespread adoption of social media advertising by key players.
