/EINPresswire.com/ -- InfiniteDATA

([www.infinitedata.com](http://www.infinitedata.com)), the next-generation IT company solely focused on democratizing Automation and helping companies on their road of digital transformation to achieve operational excellence by leveraging intelligent automation concepts, received the highest product score and ranked #1 in Enterprise Management Associates Radar Report for Workload Automation Q4 2021 - released last week October 14th, 2021.

AutomateNOW! ranked #1

“

InfiniteDATA came as an innovative disruptor to a mature market, and over the last five years has shown an incredible ability to add capabilities at a pace that continues to disrupt the market.”

*Dan Twing, COO, Enterprise Management Associates*

InfiniteDATA once again exposed its product functional dominance over other market players, becoming the number one alternative for legacy platforms of BMC Control-m, Broadcom (Automic UC4, Autosys, \$U), IBM TWS, and Hitachi JP1.

This achievement is confirmation of InfiniteDATA's vision of Enterprise Automation and its unique ability to execute. “AutomateNOW! is excited to be recognized in shaping the direction of the enterprise automation industry. Our vision of the autonomous enterprise and focus on driving value for clients is driving powerful digital transformation across industries,” said Mirosław Andziak, the Chief Executive

Officer, InfiniteDATA.

"InfiniteDATA empowers Fortune500 companies to put their data where they need it, when they need it, with context and quality! Nothing is more critical in the accelerated digital transformation enterprises across industries are driving today," said Andy Walter, Former SVP IT Procter & Gamble, Shareholder, and Advisor to the Board, InfiniteDATA

"InfiniteDATA came as an innovative disruptor to a mature market, and over the last five years has shown an incredible ability to add capabilities at a pace that continues to disrupt the market," said Dan Twing, COO, Enterprise Management Associates. "AutomateNOW! scores the highest on Functionality in this year's Workload Automation Radar Report and confirms its position as one of the best alternatives for legacy platforms. I am excited to see InfiniteDATA's progress over prior years driven by the energy of the founding team and innovative customers."
