

Healthcare Supply Chain Management Market Future Demand & Growth Analysis with Forecast up to 2028

Healthcare Supply Chain Management Market Trends – Advent of cloud-based delivery mode

VANCOUVER, BC, CANADA, November 3, 2021 /EINPresswire.com/ -- The latest and updated research report on the Global [Healthcare Supply Chain Management Market](#) covers a comprehensive overview of the Healthcare Supply Chain Management market, future economic condition, competitive landscape mapping, supply and demand trends, and production and consumption analysis.

healthcare supply chain management market is estimated to reach value of USD 3.67 Billion by 2027, according to a current analysis by Emergen Research. Focus of healthcare supply chain management (SCM) is to identify and reduce waste and help in supply chain decision making. It also contributes to the quality of the services offered. Emergence of cloud-based solutions is also fueling the market.

Increasing expenditure on healthcare requires higher efficiency in the delivery of services. Hospital supply chain management is confronted by different economic, environmental, and social issues. Growing awareness about healthcare supply chain management has propelled the demand for the same across the globe. On the other hand, lack of research in healthcare supply chain management and complex nature of the healthcare supply chain management are restraining the market.

driving factor is increase in the demand for better patient care and stringent government regulations. Advancements in technology, such as the Internet of Things (IoT) and cloud storage, have boosted the demand for healthcare supply chain management. Since supply chain objectives are not always aligned within hospitals, the market can be fragmented and inefficient.

The supply chain management providers might prefer to use a product because they were trained with it, whereas hospital's purpose is to procure a quality product which it can afford.

The report covers key points of the market, including the standards, regulations, and policy changes applied by the government on the industry for the coming years. The report encompasses thorough research carried out by the application of advanced analytical tools such as SWOT analysis and Porter's Five Forces analysis to pinpoint the growth trends and patterns. Factors likely to influence the growth of the market, current trends, opportunities, restraining factors, and business landscape are discussed in-depth in the market study.

Some major players in the market include SAP SE, Oracle, Tecsyst Inc., Cardinal Health, Epicor, Infor, Global Healthcare Exchange, McKesson Corporation, Manhattan Associates, and Cerner.

Key Highlights of Report

In December 2020, Sterling Healthcare Logistics announced the acquisition of ABS Vaccines, thereby expanding its product/service portfolio. The acquisition would strengthen Sterling's mission to provide an innovative solution that would increase efficiency across the healthcare sector.

The procurement software enables hospitals to monitor the cost of supplies and services while making the entire procure-to-pay process simple. This type of software removes time-consuming tasks while reducing cost and enhancing the vendor's experience.

The cloud-based delivery mode segment is expected to register the most rapid CAGR during the forecast period. Cloud helps in sharing and integrating information from different locations. It also reduces the cost of installation and maintenance.

North America held the largest market share in the year 2019, owing to presence of key market players and adoption of advanced technologies in the region. The U.S. holds a major share of the market in the region, due to presence of a well-established healthcare system in the region.

For the purpose of this report, Emergen Research has segmented the global healthcare supply chain management market based on component, delivery mode, end-user, and region as follows:

Component Outlook (Revenue, USD Billion; 2017–2027)

Software

Purchasing Management Software

Procurement software

Strategic Sourcing Software

Supply Management Software

Capital Purchasing Software

Transportation Management Software

Inventory Management Software

Warehouse Management Software

Implant Management Software

Order Management Software

Consignment Management Software

Tissue Management Software

Hardware

Barcodes & Barcode Scanners

RFID Tags & Readers

Systems

Others

Delivery Mode Outlook (Revenue, USD Billion; 2017–2027)

On-premises Delivery

Cloud-based Delivery

End-user Outlook (Revenue, USD Billion; 2017–2027)

Manufacturers

Providers

Distributors

The report offers a comprehensive breakdown of the regional analysis of the market and subsequent country-wise analysis. The regional analysis of the market comprises of production volume information, consumption volume and patterns, revenue, and growth rate for the forecast period of 2020-2027. According to the regional analysis, the market is primarily spread over key geographical regions as follows:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Overview of the Healthcare Supply Chain Management Market Report:

Introduction, Product Scope, Market Overview, and Opportunities

Analysis of the Manufacturers with sales, revenue, and price analysis

Comprehensive analysis of the competitive landscape

Extensive profiling of the key competitors along with their business strategies and market size

Regional analysis of the market along with sales, revenue, market share, and global position

Country-wise analysis of the market along with types, applications, and manufacturing

Strategic recommendations to established players as well as new entrants

In-depth analysis of the risks, restraints, and limitations in the Healthcare Supply Chain Management industry

Table of Content

Chapter 1. Methodology & Sources

1.1. Market Definition

1.2. Research Scope

1.3. Methodology

1.4. Research Sources

1.4.1. Primary

1.4.2. Secondary

1.4.3. Paid Sources

1.5. Market Estimation Technique

Chapter 2. Executive Summary

2.1. Summary Snapshot, 2019-2027

Chapter 3. Key Insights

Chapter 4. Healthcare Supply Chain Management Market Segmentation & Impact Analysis

4.1. Healthcare Supply Chain Management Market Material Segmentation Analysis

4.2. Industrial Outlook

4.2.1. Market indicators analysis

4.2.2. Market drivers analysis

4.2.2.1. Advent of cloud-based solutions

4.2.2.2. Large scale drug counterfeit

4.2.3. Market restraints analysis

4.2.3.1. High cost associated with the implementation

4.3. Technological Insights

4.4. Regulatory Framework

4.5. Porter's Five Forces Analysis

4.6. Competitive Metric Space Analysis

4.7. Price trend Analysis

4.8. Covid-19 Impact Analysis
