

Data Catalog Market Statistics 2021: Growth Drivers and Future Scenarios

Data catalog market size is set to rise as it provides a crowdsourcing plan of metadata and annotations that permits every user to contribute their knowledge.

PORTLAND, OR, UNITED STATES,
November 3, 2021 /EINPresswire.com/

-- Increase in the growth of self-analytics data, proliferation of data in the modern world, and growing demand for business intelligence tools are the major drivers of the market. In

addition, real-time availability of data, which helps to reduce the cost of infrastructure and gain business insights, fuels the [data catalog market](#) growth. However, lack of standardization in data management and data security & privacy concerns among different enterprises hampers the growth of the market. Furthermore, surge in the investment in the AI-enabled data catalog solutions and rise in automation technology are anticipated to create major opportunities in the data catalog market.
