*In an effort to provide customers more options, MagicKitchen.com now offers both UPS and Fed Ex for customer deliveries*

LENEXA, KANSAS, UNITED STATES, November 8, 2021 /EINPresswire.com/ -- MagicKitchen.com, a leading national [prepared meal delivery service](#), providing families and seniors with delicious chef-prepared meals, has added UPS shipping options to provide more choices for their customers. The company previously offered only FedEx shipping but felt it important to offer more options when they are available.

With the addition of UPS shipping options, customers are able to select the carrier they prefer, and the service they would like to deliver their orders. Upon check out, customers can now view both UPS and FedEx shipping rates and select the method that best meets their needs.

"At MagicKitchen.com, we are committed to enhancing the customer experience by listening to their needs and responding accordingly," said Greg Miller, CEO of MagicKitchen.com. "FedEx has met our shipping needs as our sole shipping provider for years, but with greatly expanded demand on their services, there have been some delays on delivery. Hopefully, things will improve with Fed Ex, but at this time we want to make sure customers can choose which delivery option they want."
