November 5, 2021 /EINPresswire.com/

-- InfraWare, Inc., recognized by Inc. Magazine as one of the 5,000 fastest-growing private companies in America, shared information Thursday regarding its new service offering, Readback, on the Maximum Lawyer [podcast](#) with host Attorney Tyson Mutrux.

“

[Readback] offers solutions to the numerous problems of stenographic court reporting including charges per page, add-on fees for roughs, real-time and expediting, and long turnaround times”

*Dean Whalen, InfraWare's
Chief Legal Officer*

During the podcast, Nick Mahurin, founder and CEO of InfraWare, and Dean Whalen, InfraWare's Chief Legal Officer, attorney, and former litigator, discussed the merits of Readback.

One of the co-title sponsors of MaxLawCon 2021, Readback is an innovative new service offering from InfraWare, Inc. With the introduction of Readback, InfraWare has created a new category of reporting called Active Reporting, which Whalen says “offers solutions to the numerous problems of stenographic court reporting including charges per page, add-on fees for roughs, real-

time, and expediting, and long turnaround times.”

With Active Reporting, Readback provides near-time text in less than one minute, rough transcripts in one hour, and certified transcripts in one day, for low, flat rates based on the length of the deposition.

Readback is currently only available by invitation to the Early Access Program. A general release is planned for Q1 2022. To learn more about Readback, visit [Readback.legal](https://readback.legal).

About InfraWare

InfraWare believes that people deserve to be enabled to deliver their most amazing performance. The value of their time, the dignity of their work, and the importance of the professional outcomes demand it. We innovate and continuously improve A.I. to leverage human performance by providing machine-assisted content production in highly regulated environments where repetitive documentation is important but burdensome, including transcription, deposition reporting, and property valuation.
