The programme is designed for professional and business people of any age who demonstrate a degree of ambition, courage, discipline and honesty and who want to make the very best of their business and professional lives, and also super-charge their careers.

The programme will be of particular interest to:

programme is finished. Many clients select a programme of executive coaching to maintain their development when the programme is finished.

The free discovery is available to anyone who is genuinely interested in programme, has an allocated budget and is clear what they want to achieve and how it might benefit them. The discovery phase includes:

- 1) a Marshall Goldsmith leadership assessment.
- 2) ICQ personality profile.
- 3) Gathering feed-forward from stakeholders.

- 4) Clarification of the client wants to achieve and a simple plan to achieve or overachieve it.

It's based on one 1-hour Zoom or Skype session a week over 6 months for existing NLP practitioners or over 9 months for those new to NLP. Within reason, additional sessions can be booked at no charge to address real life opportunities and challenges throughout the programme.

The 1:1 format works particularly well for ambitious individuals as:

- 1) The programme is tailored for their specific requirements.
- 2) They learn business and life applications, which they can test in their individual work situations.
- 3) The programme lasts long enough for successful techniques and behaviours to be embedded as success habits, which will be accessible for the participant's ongoing career.
- 4) When approaches don't appear to work, participants can book additional no charge sessions so they can be developed and refined until they do work - this often provides the most powerful learning from the programme.

The programme is led by Michael Beale. Michael is a certified Richard Bandler NLP trainer and coach trainer and a Marshall Goldsmith Leadership and Team coach. He has been running Business NLP Ltd for 15+ years. Previously he has 30 years' experience in buying, marketing, business development, and business strategy with major UK companies.
