

THE PLAN BY DAN HOLLINGS BRINGS EXPONENTIAL RESULTS TO AVERAGE FAMILIES

The Plan by Dan Hollings is set to officially launch at the end of November 2021 after thousands of students battle-tested its simple strategies.

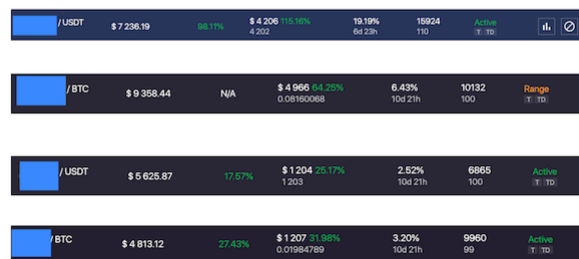

LOS ANGELES, CA, UNITED STATES, November 8, 2021 /EINPresswire.com/ -- The Plan by Dan Hollings is set to officially launch at the end of November 2021 after thousands of students battle-tested its simple, automated cryptocurrency bot strategies in the last several months during its beta test. Prior to this, Dan Hollings' has been teaching people how to make money online for over a decade and is the marketing genius behind the popular documentary, "The Secret."

“

The Plan's strategy is simple and once people know the basics, it all starts to make sense. I'm glad I took advantage of this opportunity because I can really see any average family benefiting from it"

Anna Dornier

WINNING *Automated* BOTS

The Plan by Dan Hollings Winning Bots

One of his beta students, Anna Dornier, who jumped in as early as the July 2021 beta group opened is now seeing exponential results by simply following phase 1 of Dan Hollings' The Plan diligently. To read about her full review, experience, and updates since she started, visit [The Plan By Dan Hollings Review](#) by Anna Dornier.

Anna continued to track her results for the last 4 months and her portfolio of trading bots consists of bots that are making anywhere from \$40 to \$200 per day. She continues to explain that she has only seen these returns grow over time whether the crypto market goes upwards,

downwards, or sideways because the bots actually make money by automatically making tiny trading transactions during these movements in cryptocurrency prices.

“Once I started seeing my own results and realized that I can easily set up my bots within 5 minutes once I’ve learned Dan’s strategy, I was all in,” remarks Anna. “The Plan’s strategy is really simple and once people know the basics, it all starts to make sense. I’m glad I took advantage of this opportunity because I can really see any average family benefiting from it,” Anna continued.

The Plan by Dan Hollings combined with the exponential growth that the blockchain and cryptocurrency industries are undergoing is changing the world’s economic landscape. “The people that are making smart decisions on how they are investing and growing their cryptocurrency portfolios are planting seeds right now and they are going to bear some great fruits in the future,” Anna says.

Dan Holling’s automated cryptocurrency bot strategy is one of a kind and it is set to officially launch publicly at the end of November 2022. One reason Anna is talking about her ongoing progress now is that she realizes how big of an opportunity this is for the average family to grow their wealth especially for those who don’t want to learn to trade cryptocurrencies and are in no position to take trading risks.

As always, it is good practice to consult a certified financial advisor before investing.
