Technical Expertise and Infrastructure Capability to Bolster Growth

Convenience of uninterrupted cross-streaming between multiple devices is a major driver for video streaming platforms. Successful advertising generates considerable revenue for market players. A majority of consumers cite viewer profiles as a major benefit of video streaming services. Separate viewer profiles in platforms such as HooQ, Netflix help users track their favourite shows, films. They employ user viewing behaviour and conduct consumer sentiment analysis to find relevant suggestions. On one hand, consumers get a unique viewing experience with convenience factors such as the last scene and taste specific content suggestions. On the other, video streaming platforms continuously engage and delight consumers by efficiently providing suggestions for remunerative streaming.
