LONDON, GREATER LONDON, UK, November 8, 2021

/EINPresswire.com/ -- According to the new market research report 'Air-Conditioning Equipment Global Market Report 2021: COVID -19 Impact And Recovery' published by The Business Research Company, the [air-conditioning equipment market size](#) is expected to grow from \$179.64 billion in 2020 to \$186.24 billion in 2021 at a compound annual growth rate (CAGR) of 3.7%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$247.54 billion in 2025 at a CAGR of 7.4%. Increasing urbanization and industrialization is projected to boost the demand for air-conditioning equipment during the forecast period.
