

Same-Day Delivery Service Market Benefits From Rapid Transformation Of The E-Commerce Industry

The Business Research Company's Same-Day Delivery Services Global Market Report 2021 - COVID-19 Growth And Change

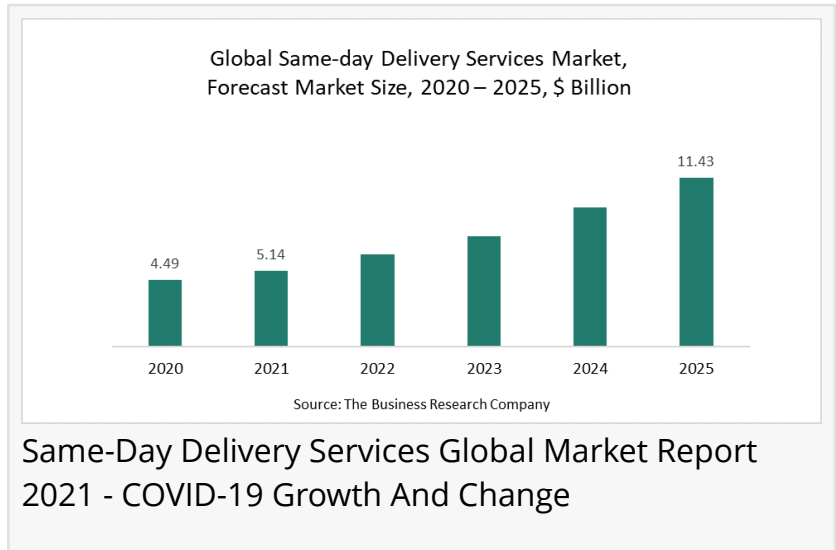

LONDON, GREATER LONDON, UK,
November 8, 2021 /EINPresswire.com/

-- The development of the e-commerce industry is predicted to contribute to the growth of the same-day delivery services market. The e-commerce industry has transformed the process of buying and selling goods. It is rapidly

expanding due to increased population density and urbanization, the use of smartphones and tablets, the availability of internet access, the adoption of digitalization and online payment modes, faster-purchasing options, lower costs, reduced travel costs & time, and, convenience. The demand for same-day delivery services market is increasing as same-day delivery is becoming a more prevalent shipping option for people shopping online. For instance, in 2021, India Brand Equity Foundation (IBEF) recorded \$8.3 billion of Indian e-commerce GMV during the festive season in 2020 which is 66% higher than the previous year's festive season. Also, in 2021, The US Census Bureau of the Department of Commerce estimated \$222.5 billion US retail e-commerce sales during the second quarter of 2021. There was an increase of 3.3% from the first quarter of 2021. Therefore, the development of the e-commerce industry drives the growth of the same-day delivery services market.

Asia-Pacific was the largest region in the same-day delivery services market in 2020. The regions covered in the same-day delivery services market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.

The global [same-day delivery services market size](#) is expected to grow from \$4.49 billion in 2020 to \$5.14 billion in 2021 at a compound annual growth rate (CAGR) of 14.4%. The growth of the same-day delivery services market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier

led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The same-day delivery services market is expected to reach \$11.43 billion in 2025 at a CAGR of 22.1%.
