

Global Drafting Services Market Size And Drafting Services Market Growth Opportunities

The Business Research Company's Drafting Services Global Market Report 2021 - COVID-19 Impact And Recovery

LONDON, GREATER LONDON , UK, November 8, 2021 /EINPresswire.com/

-- According to the new market research report 'Drafting Services Global Market Report 2021: COVID-19 Impact And Recovery' published by The Business Research Company, the [drafting services market](#) size is expected to grow from \$3.06 billion in 2020 to \$3.42 billion in 2021 at a compound annual growth rate (CAGR) of 11.8%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$4.08 billion in 2025 at a CAGR of 4.5%. The growing demand for computer-aided design (CAD) services is expected to propel the growth of the drafting services market.

Drafting Services Market Report 2021 - COVID-19 Impact And Recovery

GLOBAL DRAFTING SERVICES MARKET

Information sourced from The Business Research Company [thebusinessresearchcompany.com](#)

The drafting services market consists of the sales of drafting services and related goods by entities (organizations, sole traders, and partnerships) that draw detailed layouts, plans, and illustrations of buildings, structures, systems, or components from engineering and architectural specifications. Only goods and services traded between entities or sold to end consumers are included.

High Cost Of Computer-Aided Design (CAD) Drafting Services Is The Main Driver Of The Market

3D printed buildings is a key trend gaining popularity in the drafting services market. A 3D printer can support the design and construct of the entire building. This method is more eco-friendly, cost-effective, and time-efficient in printing buildings than other traditional methods. A digital 3D design of an object is produced either by a computer-aided design (CAD) or by a 3D scanner.

Expected Growth Rate Through 2025
4.5%

Expected Market Size By 2025
\$4.08 Billion

The drafting services market consists of the sales of drafting services and related goods by entities (organizations, sole traders, and partnerships) that draw detailed layouts, plans, and illustrations of buildings, structures, systems, or components from engineering and architectural specifications. Only goods and services traded between entities or sold to end consumers are included.

Trends In The Global Drafting Services Market

3D printed buildings is a key trend gaining popularity in the drafting services market. A 3D printer can support the design and construct of the entire building. This method is more eco-friendly, cost-effective, and time-efficient in printing buildings than other traditional methods. A digital 3D design of an object is produced either by a computer-aided design (CAD) or by a 3D scanner. In 2018, COBOD, a Danish 3D printing construction company launched the BOD2 3D printer. This cuts the installation time by 50%, enabling the printer to be mounted in a new location within 4 hours. The BOD2 can create three-story buildings in one go, each of which could be more than 300 square meters in length.

Global Drafting Services Market Segments:

The global drafting services market is further segmented:

By Service Type: Mechanical Drafting Services, Site Drafting Services For Civil Engineering Projects, Structural Components Of Buildings Drafting Services, Architectural Drafting Services, Drafting Of As-Built Drawings, Drafting Consulting Services, Others
