

# Breath Analyzers Market Trend, Growth, Size, Forecast, Key Players and Competitive Landscape Research Report

*The growth of the market is attributed to the adoption of smartphone based breath analyzers and growing number of approvals from various regulatory bodies*

CANADA, BC, VANCOUVER, November 8, 2021 /EINPresswire.com/ -- The latest report titled 'Global [Breath Analyzers Market](#),' published by Emergen Research, provides the reader with a comprehensive view of the global Breath Analyzers industry, acquainting them with the latest market trends, industry insights, and

market share. The report provides an in-depth investigation of the global market, largely focusing on each segment and sub-segment of the Breath Analyzers market. Our sample copy includes a brief analysis of the Breath Analyzers market, the List of Tables and Figures, the market's competitive scenario and geographical segmentation, and product innovation and future developments based on a sought-after research methodology. However, despite the multiple advantages of breath analyzers, issues like discrepancy in results and hygiene considerations pose major threats to the expansion of this market. According to our analysts, it is projected that the demand for this technique is ought to rise perpetually. However, inexact analysis is likely to cause incorrect diagnosing which is a major restraint of the market. Emerging markets across the globe are focusing on dual sensor technology which has potential to drive the market in future.

The Global Breath Analyzers Market report presents comprehensive information covering insightful data for businesses and investors for the time period of 2020-2027. The comprehensive analysis of the competitive landscape offers the readers a deeper understanding about the competitors. Factors like increasing alcohol and substance abuse coupled with strict government laws are the major factors driving market growth. Growing number of approvals from restrictive bodies like the European Commission and U.S. FDA, along with increasing traction of smartphone-based breath analyzers is accelerating the market growth. There are

innovative product offerings by major companies operating in the market, particularly for medical applications, are anticipated to fuel the growth of breath analyzers market across the globe throughout the forecast period.

### Key Highlights From The Report.

With a progressive CAGR of 29.3% during the forecast period, Asia Pacific is likely to exhibit a profitable share of the industry owing to untapped market potential and increasing awareness about technologically advanced and commercially available products.

Prominent growth in the demand for accurate, fast and easy methods for initial diagnosis of diseases such as chronic obstructive pulmonary disease (COPD), asthma and cancer is stimulating market growth. Additionally, utilization of breath analyzers to assess carbon monoxide quantity in exhaled air for smoking cessation is forecasted to drive market growth during the forecast span.

Key participants include Alcohol Countermeasure Systems, Quest products, Inc., Alcovisor, AK GlobalTech Corp, Drägerwerk AG & Co. KGaA, Lifeloc Technologies, Corp., Akers Biosciences, Inc. and Toshiba Medical Systems among others.

Breath analyzers are also gaining traction because of the increasing demand for effective BAC (blood alcohol content) level measuring devices at workplace coupled with its non-invasive nature. It is a vital tool for tuberculosis, observance medicine, alcohol, bronchial asthma, and other diseases. The Global Breath Analyzers Market report provides full coverage of the companies' data, including details about their production and manufacturing capacity, product portfolio, business overview, revenue, gross profit margins, sales network and distribution channel, financial standing, and market position. The report also studies business strategies and strategic alliances undertaken by companies to gain a robust footing in the market. The report sheds light on the mergers and acquisitions, collaborations, joint ventures, brand promotions and product launches, agreements and partnerships, and corporate and government deals.

### Market Overview:

The research report on the Breath Analyzers market is formulated through extensive primary and secondary research along with qualitative and quantitative analysis of vital aspects of the market. The insightful data is further validated and verified by the industry professionals. The report strives to offer deeper insights into the overall market scenario of the Breath Analyzers business sphere.

For the purpose of this report, Emergen Research has segmented into the global Breath Analyzers Market on the technology, application and region:

Technology Outlook (Revenue, USD Billion; 2017-2027)

Fuel cell technology

Semiconductor oxide sensor technology

Infrared spectroscopy (IR)

Chemical crystal technology

Others

Application Outlook (Revenue, USD Billion; 2017-2027)

Alcohol detection

Drug abuse detection

Tuberculosis detection

Asthma detection

Others

The report aims to deliver a comprehensive understanding of the Breath Analyzers market growth and expansion in each key region of the world. It offers accurate estimations about the expected market size and growth over the projected timeline of 2020-2027.

Major Geographies Covered in the Report:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Table of Content

Chapter 1. Methodology & Sources

1.1. Market Definition

1.2. Research Scope

1.3. Methodology

1.4. Research Sources

1.4.1. Primary

1.4.2. Secondary

1.4.3. Paid Sources

1.5. Market Estimation Technique

Chapter 2. Executive Summary

2.1. Summary Snapshot, 2019-2027

Chapter 3. Key Insights

Chapter 4. Breath Analyzers Market Segmentation & Impact Analysis

- 4.1. Breath Analyzers Market Material Segmentation Analysis
- 4.2. Industrial Outlook
  - 4.2.1. Market indicators analysis
  - 4.2.2. Market drivers analysis
    - 4.2.2.1. Increasing traction of smartphone-based breath analyzers
    - 4.2.2.2. Growing number of approvals and quality certifications from regulatory bodies
  - 4.2.3. Market restraints analysis
    - 4.2.3.1. Awareness regarding accuracy and hygiene
- 4.3. Technological Insights
- 4.4. Regulatory Framework
- 4.5. Porter's Five Forces Analysis
- 4.6. Competitive Metric Space Analysis
- 4.7. Price trend Analysis
- 4.8. Covid-19 Impact Analysis

## Chapter 5. Breath Analyzers Market By Technology Type Insights & Trends, Revenue (USD Million)

- 5.1. Technology Type Dynamics & Market Share, 2019 & 2027
  - 5.1.1. Fuel cell technology
  - 5.1.2. Semiconductor oxide sensor technology
  - 5.1.3. Infrared spectroscopy (IR)
  - 5.1.4. Chemical crystal technology
  - 5.1.5. Others

### Key Objectives of the Report:

The report is inclusive of an in-depth study of the industry variables, manufacturers' value chain, sales volume, market share, competitive landscape, and effective business tactics.

The report further identifies the key regions and segments dominating the market. These regions are foreseen to register fast-paced growth over the forecast duration.

### Key Questions Answered in the Report:

What are the key growth driving and restraining factors of the Breath Analyzers market?

What is the growth rate of the Breath Analyzers market? What is the anticipated market valuation of Breath Analyzers industry by 2027?

Who are the prominent players operating in the market? What are the key strategies adopted by these companies?
