

Metro Wireless Mobile LTE Business Internet Platform Now Supports 5G

An industry leader in providing ultra-high-speed internet services has expanded its offering.

DETROIT, MICHIGAN, UNITED STATES, November 8, 2021 /EINPresswire.com/ -- According to a recent study (<https://www.ericsson.com/en/reports-and-papers/mobility-report>), global 5G adoption is expected to hit one billion in 2022. That's why representatives with [Metro Wireless](#) are proud to announce today that its Mobile LTE Business Internet Platform now supports 5G.

"We're excited about this because the No. 1 LTE solution just got better," said Dominic Serra, CEO and Founder of Metro Wireless, a Metro Detroit-based Internet Service Provider and telecommunications company.

Serra explained that its unique 4G/5G service offering is the industry leading mobile-based solution for any businesses' Internet needs.

Metro Wireless was founded in 2013 and serves Detroit area businesses throughout the Tri-county area of Metro Detroit and offers LTE Internet nationwide. The company offers options on both primary and backup business Internet services for commercial customers.

Metro Wireless's capability to now support 5G could prove to have perfect timing. According to estimates from [Ericsson's latest Mobility Report](#), the number of 5G smartphone subscriptions worldwide will blow past previous expectations, more than doubling from 2020. In 2022, the report reveals, 5G subscriptions are expected to pass one billion, reaching that milestone two years earlier than 4G did after its introduction.

"The great news is that nationwide services available with rapid deployment to one or many locations," Serra stressed before adding, "It includes high quality hardware and networks, static IP is included. It also empowers you with portal access and alerts 24-hour support, the average

speed is 10-50 MBPS, and external upgraded antennas are available, in addition to SD-WAN Bundles.

MetroLTE Advanced, Serra noted, is a premium mobile and fixed wireless solution for businesses. It offers the largest high speed data plans with the most advanced wireless hardware and solutions on the market today.
